

# **PHILANTHROPIST**

**BY MARIA SERAPIO**

A philanthropist that I admire is Mrs. Brian. Originally Mrs. Brian is from the copper state (Arizona) where she was raised. She has done myriad of things to aid people. Including teaching people to matriculate into new dialect. Not just anyone can do the job it takes great tranquility to instruct and teach. Mrs. Brian has been teaching for approximately 20 years. She has taught the language of Spanish and English (ESL) over the course of her life. On top of that she is a very proud mother of four kids. Now she has dedicated her free time to her grandchildren and teaching English to adults.

Mrs. Brian has taught me English when I only spoke Spanish. Well she also essentially taught my siblings and many others how to pick up the new dialect. Not only did she teach English she also taught Spanish in schools. I would consider teaching people a new language would be pretty hard so hats off to her. Mrs. Brian has had an important part in the Latino culture in Greencastle. Additionally to that she is a very active and critical member of her local church. She has been a family friend and I always admire what she has done for us and many other people and never once did she ask for anything in return. I am sincerely grateful for all she has done for me. Sometime she would assume the role of my grandma when my real one was millions of miles away. Mrs. Brian is philanthropist that I greatly admire.
